SUMMARY

A detail-oriented web developer with over 2+ years months of experience, this meticulous web developer is an expert in the design, development, and upkeep of scalable web applications for the IT industry. Proficient in a range of technologies, including HTML, CSS, JavaScript, PHP, Laravel, and MySQL, with proven skills in responsive design and API integration to create engaging and impactful user experiences. Adept at problem-solving, seeking to leverage skills to enhance operational efficiency and drive innovative solutions.

SKILLS

Technical Skills:

HTML, CSS, JavaScript, PHP, Laravel, Bootstrap, Xampp, MsSMS, Figma, Responsive Web Design, UI/UX Best Practices, Version Control: GitHub, API Integration: Biometric, Payment Gateway Linking, SMS

Soft Skills:

Problem-Solving | Troubleshooting | Team Collaboration & Communication | Time Management & Project Coordination | Continuous Learning | Innovation | Technical & User Support | Creativity and UI/UX Enhancement

EXPERIENCE

1. Web Developer & Support Engineer

Vmedulife Software Pvt Ltd – Pune (Nov 2022 – April 2025)

- Led the design and development of key modules (Certificate, SMS Panel, ID Cards, Autonomous examinations, Events, Library, Admission, Payroll, Transport, Leave Management, Fees, etc.), improving system functionality by 30% and increasing user satisfaction.
- Developed responsive web pages using HTML, CSS and Figma, ensuring optimal UI/UX.
- Integrated third-party APIs for payment gateways and SMS systems, enhancing transaction efficiency by 30%.
- Resolved complex technical issues and provided troubleshooting solutions that reduced downtime by 15%.
- Optimized MySQL database queries, reducing server load by 25% and boosting performance.

2. Laravel Developer Intern

Inforadiant Technologies Private Limited – Nagpur (Feb 2022 – Aug 2022)

- Developed a reusable UI library and framework, reducing both front-end and back-end development time by 20%, while ensuring consistent code quality and enhancing project efficiency.
- Designed and deployed a web application with 80% uptime over six months.

PROJECTS

1. IT HelpDesk Ticket Management System

Inforadiant Technologies Private Limited

- Developed a Laravel-based IT HelpDesk system to streamline ticket creation and query tracking, improving operational efficiency.
- Created a responsive front-end UI library and built a back-end framework command to enhance functionality and usability.
- Implemented real-time ticket tracking, automated status updates, and secure role-based access to ensure seamless user experience and data security.

2. ERP Software

Vmedulife Software Pvt. Ltd.

- Designed UI/UX for **Certificate and ID Card modules** using HTML, CSS, JavaScript, and Figma incorporating real-time UI modifications ensuring cross-device compatibility.
- SMS Panel Module:** Integrated third-party SMS APIs (Textlocal, Gupshup, Adeep Technologies, etc.) to improve communication.
- Biometric Integration:** Managed SQL Server and database creation to retrieve logs into biometric software and integrated biometric attendance systems with cloud storage and MySQL, supporting devices such as ESSL, RealTime, EteamOffice, CAMS, OnTime, and Secureye, etc.
- Payment Gateway Integration:** Configured and thoroughly tested payment gateway APIs (RazorPay, CCAvenue, Easebuzz, etc.) module-wise before live deployment, ensuring seamless transactions and successful platform integration.

EDUCATION

1. **MCA**

GH Raisonni Institute of Engineering and Technology (Autonomous) – Nagpur | Dec 2020 – Aug 2022

2. **B.Sc. Computer Science**

Jawaharlal Nehru Arts Commerce & Science College (RTMNU) – Nagpur | Jul 2016 – Oct 2020

CERTIFICATES

- C/C++ (2021) – Binary Brains Training Institute
- Python (2021) – Binary Brains Training Institute
